

<http://nosaer.de>

NOSÆR is singer-songwriter Felician Siebenstaern and drummer Micha Strauss. They create an unordinary synthesis of singer-songwriting, drumming and electronic/acoustic elements combined with a focus on poetical lyrics.

Felician started writing Songs when she was 9 years old. Later on she studied Arts and Media Arts and is playing with several Bands and Solo Projects since more than 20 years. Her last Album „Catch my.Fall“ was released at Universal Music 2013.

Micha decided that drumming would save his life when he has been 13 years old. At this really early time he left his home to fulfill this vision. During the last 20 years he created his own atmospheric idea of sound during his work as producer and drummer for several artists and bands.

Micha and Felician found themselves as Duo in 2016 during a recording session at Ireland. While each of them already owned a very unique musical style, they came together to give birth to a new unexpected music, which is characterized by an unordinary synthesis of singer-songwriting, drumming and electronic/acoustic elements.

Micha's rule breaking drum playing yearns Felician's melodies with a progressive style. Their songs tell stories with a deep atmosphere.

You will find all this woven into the 11 Songs on „Signals from eternity“.
